Please see email below with a complaint about emissions that apparently have been reported to PADEP with no resolution. Citizens say that they contacted EPA (no specifics about who), but got no response. Can you look into this? Contacts for citizens are contained in email.

A little background: these citizens are part of group that have been pushing for a "Susquehanna River Forum" to address concerns about impacts on the river from fracking/extraction activities. Region III recently hosted a forum on the Delaware River that focused on protection of the resource as a drinking water resource and among other things, fracking was discussed. This group is pushing for a similar forum for the Susquehanna. They are writing and calling the Administrator and the RA on an on-going basis.

for more info--

we have complained to the DEP;

this has been going on for many months, year;

any help with media investigation of this appreciated.
